List the DeviceMaster in the lower Device List Pane. Highlight the DeviceMaster in the Device List Pane Click on the "Save" icon as seen on the launch bar Enter a path to the save location Enter a name to save the file as Click Save

Do not be concerned if the above two dialogs do not appear. Newer version of Firmware and PortVision DX do not prompt for this condition and will save the full file. The result file should be greater than 1K in size.

DeviceMaster Configurations						
anna kat	*					

You have now saved a config file that can be used to reload to this DeviceMaster or uploaded to multiple

DeviceMaster's that need the same configuration.
